Ford

# IMPCO Ford Program

IMPCO Automotive, a global industry leader in the design, development, and installation of alternative fuel solutions, works with some of the largest and most influential Original Equipment Manufacturers in the world.

- Almost 6 million alternative fuel systems have been installed worldwide by IMPCO and their sister companies
- IMPCO's Sterling Heights Research and Development facility houses 24 hour, 7 day per week durability test beds, full EPA and CARB compliant high speed emissions test facilities.
- IMPCO's Union City, Indiana facility was designed to meet or exceed all OEM manufacturing requirement

## Ford Platforms

- Systems meet Q-185 and Q-222 Ford Bulletin to maintain all Ford Warranty
- Qualified Vehicle Calibrator (QCM) with Ford-which means IMPCO meets all the standards required for seamless operation on an alternative fuel
- Fuel lines and harnesses clipped, secured, and routed to meet or exceed all OEM standards
- Work performed and validated in an ISO 9001:2008 certified manufacturing facility
- Dyno tested following system installation to ensure proper performance
- Fasteners coated to exceed 10 year cyclic corrosion testing
- 3 Year/36,000 Mile Warranty
- Aftermarket Installations available via Certified Installers
